

Product Data Sheet

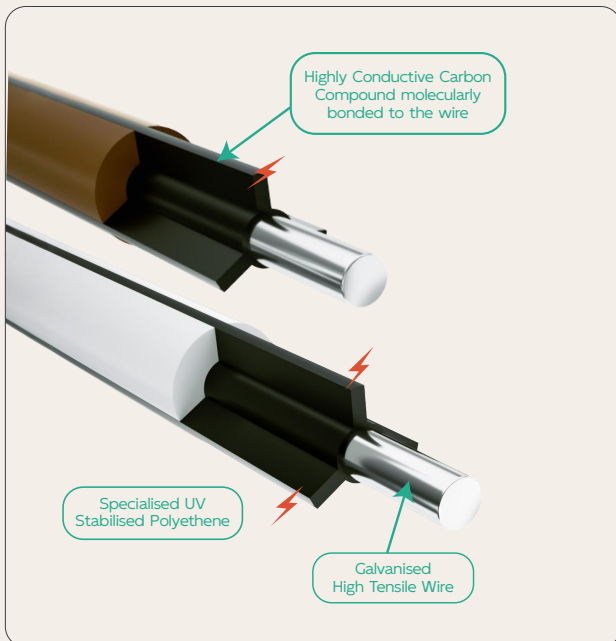

FLEX RAIL ELECTRIC

LF-MWLD-02

Colors

- Highly visible to help prevent animal entanglement.
- Large diameter smooth coating minimises risk of injury to animal
High stress crack & UV resistant pipe grade polyethylene ensures long life.
- Steel core provides effective power transmission with minimum voltage drop.
- Unique electrically conductive polymer ensures power is effectively maintained along the fence line.

Roll Length 656'(200M)

weight Per Roll 15.2kg

Steel Wire 12.5-Gauge

Min. Break Strength 1600KG
